

Buyers Club - Free Azure Standard Training

This thursday, January 11th at 12:00pm, Steve will be at the new Co-op computer terminal at Randy's to demonstrate how to register and make orders through the azurestandard.com website. For those who have not made an order yet and are feeling intimidated by the technology, come to Randy's and learn how simple the process really is. Our next Azure Standard order deadline is **January 17th** at 4:00 pm with a delivery on Jan. 22nd.

Wanted: Community Gardens Coordinator

The Co-op needs a motivated person to take on the responsibility of coordinating our Community Gardens Program. It would be helpful to have gardening experience, but not absolutely necessary. You would need to be interested in gardening, well organized, and good at working and communicating with people.

Wanted: Coordinator & participants for Co-op entry in the Pioneer Picnic Parade

Got imagination? What would happen if you dropped 14 shopping carts, a number of co-op members, and a unique sense of humor into the middle of the Pioneer Picnic Parade? Hopefully you would end up with a fun statement that informs the community about the existence and activities of the Brownsville Co-op. We need someone to coordinate the design and choreography of our entry and to recruit participants. Bonus points for those who know how to roller skate:-)

Next Co-op Meeting is Feb. 19th

7:30 at the Bramble House Restaurant.

Sidenote: If you are not already on the Salon mailing list (bville-citizens) and would like to be informed about the free video salons that are held monthly at the Corner Cafe, let me know that you want to be placed on the list. Our next salon is on January 26th and is about dreams and dream work -. "An Inconvenient Truth" will be showing in February.
